

The documents are in PDF and are formatted as small pages so that 2 pages can be printed on each side of the paper, and all 4 pages can be printed on both sides of the paper. The Acrobat printing controls in recent versions have a “booklet” printing setting that makes this easy:

If this is not available, a hard copy can be cut up and pieced together before copying.

The paper is to be folded to form a pamphlet / booklet. Here are pictures of the finished pamphlet.
